**GLOBALTEC INTRODUCES MB TRADING AS INTEGRATED
BROKER FOR ONLINE STOCK TRADERS USING WIZETRADE**

(DALLAS—March 20, 2007) Officials with [GlobalTec](#) and [MB Trading](#) announced today that MB Trading is now a fully integrated broker with [Wizetrade](#), the No. 1 stock trading trend analysis software for individual investors.

Founded in 1999 and based in El Segundo, Calif., MB Trading, is a direct access brokerage firm that develops and markets sophisticated yet simple direct access trading technology to online investors, allowing them to bypass the middleman and trade directly to the NASDAQ, NYSE and AMEX markets.

Over the past seven years, tens of thousands of investors have done just that using Wizetrade software. Wizetrade users do not have to exit the software when sending stock trading orders to their integrated brokers. MB Trading is the third online broker to integrate with Wizetrade, joining [Fimat PreferredTrade](#) and [optionsXpress](#) (NASDAQ: [OXPS](#)).

“We are proud to welcome MB Trading as an integrated broker partner for Wizetrade users,” said John Dankovchik, president of Dallas-Based GlobalTec. “Thousands of GlobalTec currency traders are already familiar with MB Trading as an integrated broker for [4X Made Easy](#). We’re excited to expand this relationship to include our flagship software Wizetrade.

“MB Trading offers not only outstanding direct access technology, but first-rate customer support as well—traits that are very much in alignment with GlobalTec and its mission to help each and every trader become as successful as possible,” Dankovchik continued.
